

Since January 2020 Elsevier has created a COVID-19 resource centre with free information in English and Mandarin on the novel coronavirus COVID-19. The COVID-19 resource centre is hosted on Elsevier Connect, the company's public news and information website.

Elsevier hereby grants permission to make all its COVID-19-related research that is available on the COVID-19 resource centre - including this research content - immediately available in PubMed Central and other publicly funded repositories, such as the WHO COVID database with rights for unrestricted research re-use and analyses in any form or by any means with acknowledgement of the original source. These permissions are granted for free by Elsevier for as long as the COVID-19 resource centre remains active.

WITHDRAWN: COVID-19 Severity Scoring Tool for low resourced settings

Lee A. Wallis^{a,b,c}

“This article has been withdrawn at the request of the author.

This article originally referenced the Severity Scoring Tool, which was initially derived using data from Surgisphere. Given that validation of primary Surgisphere data is not possible, AFEM discontinued use of the Severity Scoring Tool since June 5th 2020. A corrected, final

version of this article is now available: <https://doi.org/10.1016/j.afjem.2020.06.001>

The full Elsevier Policy on Article Withdrawal can be found at <http://www.elsevier.com/locate/withdrawalpolicy>.”
